Now trapped with Barrington and a handful of his loyal officers, Slim has to negotiate with the Sioux warriors, who want Barrington to pay for his crimes. Slim, Madge, Barrington, and his men just might end up a sacrifice to Fire Bubbles.

The Methane Mamba Science Water is a great conductor of heat, and it literally pulls the heat away from your hand for the few seconds that the methane bubbles are on fire. As the flame heats the water on your hands, some of the water at the very surface evaporates, and it's this natural cooling process from the evaporation that keeps your hand from burning.
